**Laras Pharmacist Francisco J. Jimenez-Ramirez Honored for Outstanding Community Service**

**WASHINGTON, DC** – The Colegio de Farmaceuticos de Puerto Rico has selected Francisco J. Jimenez-Ramirez, Pharm.D., as the recipient of the 2016 Bowl of Hygeia Award for outstanding community service. Duteau was presented the award at the PSSNY 138th Annual Convention on Thursday, August 18. The Bowl of Hygeia is sponsored by the American Pharmacists Association Foundation, the National Alliance of State Pharmacy Associations and the American Pharmacists Association with support from Boehringer Ingelheim.

Jimenez-Ramirez has provided community service in various fields of the profession of pharmacy, including diabetes, vaccination, blood donation, ophthalmology, health, education cancer patients and other health professionals and health fairs.

His service has been focused on the patient and disease prevention. Dr. Jimenez has managed to advocate for the profession of pharmacy throughout his career by giving back selflessly.

Established in 1958, the Bowl of Hygeia Award recognizes pharmacists who possess outstanding records of civic leadership in their communities and encourages pharmacists to take active roles in the affairs of their respective communities. The award is presented annually by participating state pharmacist associations, including those in the District of Columbia and Puerto Rico. In addition to service through their local, state and national pharmacy associations, award recipients have devoted their time, talent and resources to a wide variety of causes and community service.

The Bowl of Hygeia is the most widely recognized international symbol for the pharmacy profession and is considered one of the profession's most prestigious awards. The Bowl of Hygeia has been associated with the pharmacy profession since as early as 1796 when the symbol was used on a coin minted for the Parisian Society of Pharmacy. The bowl represents a medicinal potion and the snake represents healing. Healing through medicine is precisely why the pharmacy profession has adopted the Bowl of Hygeia symbol.
